

THE JOURNEY STARTS- Mandy

The journey starts, the journey starts within us

The answers get lost but they never really leave us

Look, are you looking, looking hearing feeling

Open , are you open , open your heart mind and spirit.

I believe that dreams can come true

I believe that angels lead us to 'em

I believe that in this world

You will find what you need.

I once lost love, couldn't see it couldn't feel it

I once lost hope, couldn't see it couldn't feel it.

I didn't believe that this world wanted or needed me

I didn't believe that my life mattered to anyone

I didn't believe that dreams could come true.

Repeat "the journey starts etc"

I have learnt to believe to see love and feel it

I have learnt to believe to see hope and feel it.

I believe that dreams can come true

I believe that angels lead us to 'em

I believe that in this world you will find what you need.
